NAILING IT

One whiff of nail polish remover, and you're likely to be overcome by a wave of nausea—it's a product that's toxic by definition. But Spa Ritual, known for its kinder, gentler, earth-friendlier polishes, has now created an equally gentle remover. Fluent Conditioning Lacquer Remover is the first vegan entrant into the category, and is both nourishing and non-drying. Not to mention that the scent, created with Italian red mandarin essential oil, smells anything but toxic. FIORELLA VALDESOLA \$5, at Fred Segal Beauty.
